"JACKPOT" TO RE-ELECT SEN. HOPKINS

Chicago Tribune Uncovered Another Scandal in Legislative Circles.

Saw \$35,000 to buy Up Minority Vote in Illinois General Assembly.

HOPKINS STOPPED IT.

Chicago, July 28.—Denial of none of the principals, named in the new legislative scandal, charging a \$35,000 "jackpot" raised to purchase Democratic votes in the interest of the re-election to the senate of former Senator Hopkins, has been received as yet. Hopkins and Speaker Shurtliff are not at home. Roger Sullivan declined to discuss the charges, except to say he knows nothing about the matter.

The Chicago Tribune prefaced the charges this morning, saying details are to be expected. Sullivan and Shurtliff are given credit for blocking a plan to purchase 17 Democratic votes.

The Tribune states it does not charge Hopkins with knowledge, but makes him beneficiary of the plot. Senator Lortimer is declared to have played an influential part in blocking the plot.

WHITE PLAGUE

CARRIES AWAY YOUNG WIFE AND MOTHER.

Wife of Contractor Jack Cole Passes Into Great Beyond This Morning.

Mrs. Carrie Cole, 32 years old, wife of Contractor Jack Cole, died at 10 o'clock this morning after a lingering illness of consumption at her home two miles from Paducah on the Hinkley road. She was a patient sufferer and leaves many friends here. Several months ago she was taken to Texas by Mr. Cole in hopes of benefiting her health, but she showed no improvement and returned home three months ago. She gradually grew weaker.

Mrs. Cole, nee Miss Carrie Hutchinson, was born at Ridgeway, Ill. She had resided in Paducah twenty years and was married here. She was a member of the Second Baptist church. Surviving her are her husband and four children: Walter, aged 9, Mary, 7; Jack, 6, and Beale, 2 years old. She also leaves two sisters and two brothers as follows: Mrs. Edward Calender, of Livingston county; Mrs. L. O. Hawkins, of Jackson, Mich.; and Messrs. Roland and Forrest Hutchinson, of Paducah.

The funeral will be held at 3 o'clock tomorrow afternoon at the residence and burial will be in Oak Grove cemetery. The Rev. J. R. Clark will probably officiate.

White Plague Victim.

After a lingering illness of consumption Zellner Moore, 21 years old, died yesterday afternoon at 2:30 o'clock at his home, 909 Jones street. He was born in Graves county and had been living here several years. He was a druggist. Surviving him are his parents, Mr. and Mrs. E. J. Moore, one brother, Tinsley Moore, and one sister, Maudy Harmon, all of this city. The body will be taken to Mayfield at 4:15 o'clock this afternoon and the funeral and burial will take place at 5 o'clock.

Must Get Some Hitters.

Get some hitters! This was the instruction given Manager Louis Angermeyer this morning at the meeting of the directors of the Paducah baseball club. Director Jesse Gilbert will assist Manager Angermeyer in selecting players who have the ability to wield the willow and collide with the ball. The local team has not got a player that batted 300 during the first part of the season, and the general average is way down in the 200 class.

Back to Beverly

Bluffsford Pool, Mo., July 28.—The yacht Mayflower left here early today on the last leg of the return cruise to Beverly, where the president and party are due this afternoon.

Storm Sweeps Across Daviess and Hancock Counties, Causing Loss of Crops and Damaging Property

Henderson Route Railroad Is Washed Out and Covered by Landslide—Depot Struck by Lightning and Burned to Ground.

Louisville, July 28. (Special.)—Heavy damages by storms are reported in Kentucky. Hancock county was swept by a storm for ten hours. The depot at Lewisport has struck by lightning and burned to ground. The L. H. & St. L. tracks were washed in a dozen places and covered by a landslide. Hawesville's electric plant was damaged and the town was in darkness last night. Bridges were washed away. Crops are ruined. Owensboro and Richmond report heavy storms.

What Go After Hunt.

Some time next week, Attorney David Browning, accompanied by Detective Collins, and Moore will leave for Murphysboro, Ill., to bring back John Hunt, alleged murderer of the dead youth of the Pool road mystery. An affidavit has been prepared and sent to the governor stating that the officers refused to turn Hunt over to the Kentucky officers.

Germany Won't Protest

Berlin, July 28.—The foreign office today authorized the statement that Germany refused to lodge a protest at Washington against the United States' interference in Nicaraguan affairs. An appeal was received by Germany six weeks ago for the protest of Germany against American intervention. In today's statement, it is said, "Germany replied politely, refusing to intervene." A similar appeal was sent to other countries.

WARRANTS OUT

CONSPIRACY CHARGE IS FORMALLY PREFERRED.

County Attorney Clay Starts Probe Into Alleged Plumbers' Pool.

Warrants were issued by Police Judge Cross at the instance of County Attorney Sanders Clay, charging that Mart Coulson, Arts & Talbot and E. D. Hannan "did unlawfully and wilfully create, establish, organize and enter into and become members and parties to and interested in a pool, trust, combine and agreement and understanding with each other for controlling and fixing the prices of and limiting the quantity of and raising above the reasonable market value of certain articles, etc."

This action is based on the affidavit made by Coulson and Arts & Talbot and denied by Mr. Hannan. The penalty is a fine of \$500 to \$5,000 with or without imprisonment in the county jail for six months to a year. The action of the board of aldermen Monday night, which will investigate the charges at the request of Mr. Hannan, will throw a great deal of light on the situation.

Bryan Says Fight Has Just Started

Lincoln, Neb., July 28.—Although defeated at the convention in his efforts to force on it a county option plank, Bryan has not dropped the fight. He will now seek to secure the nomination of Democratic candidates for the legislature favorable to the county option law, withholding his support from candidates at the primaries opposed to such law. He said today: "The failure of the convention to endorse it was indeed a disappointment, but the fight was not in vain. It helped to secure a declaration in favor of the initiative and referendum by both parties. No doubt the amendment will be submitted at the next legislature. Both parties favoring referendum, the candidate who refuses to support it, declares himself against the rule of the people and repudiates his party platform. I believe the Democrats have a great advantage in the discussion of national issues. The Democrats ought to elect a United States senator. It is not opposed by a large element of my party. From this element we ought to draw enough votes to win."

THE WEATHER

The predictions and temperatures for the past twenty-four hours will be found at the top of the seventh column on page one.

LAST HOLDINGS OF ASSOCIATION HERE SOLD TODAY

WATCH IT BUYS. Herried, St., July 28.—Flames of unknown origin wiped out the entire business district of Terried this morning. They are dying out with not more buildings to destroy. No fire apparatus is here. The inhabitants could only watch the fire destroy. The loss is \$50,000.

"JOHNNY IN BAD"

HAD PROMISED TO LEAVE CITY MONTHS AGO.

Her Presence Was Brought to Light by Near-Tragedy in Her "Parlors."

Her Rogers, of Brookport, Ill., who, it is alleged, battered and cut the face and head of Al Futrell, of La Center, into an almost unrecognizable mass early yesterday afternoon at the home of Johnny Bell, 314 Caldwell street, was caught at 4:30 o'clock yesterday afternoon aboard the ferryboat G. W. Robertson, when it landed at the foot of Jefferson street after a trip to Livingston Point. The arrest was made by Patrolmen England and Stewart. Rogers' left eye was badly cut and bruised.

In police court this morning Rogers said Futrell forced his way into Johnny Bell's house and rushed at him with a knife, inflicting the wounds over the eye. He said he grabbed up a beer bottle and proceeded to dash Futrell, after raining many cutting blows. A charge of malicious cutting against Rogers was dismissed and he was fined \$25 for malicious assault. Futrell is in a bad condition and twelve stitches were required to close his wounds caused by broken glass.

What's in This Name?

River Bank, California Town, to Be Perpetually Dry.

Fresno, Cal., July 28.—Dry in perpetuity is the restriction placed by the Santa Fe railroad on all deeds to property in the new town of River Bank, which is to be a mid-valley division point on that line. District Agent Hobart says it is the first town laid out by a railroad to exclude towns for all time.

MURDER THEORY NEW DISCARDED

RAWN'S FAMILY BELIEVE HE ACCIDENTALLY SHOT HIMSELF WITH REVOLVER.

Chicago, July 28.—That I. G. Rawn committed suicide was practically made certain at the first session of the coroners' inquest, ending this morning. Pinkerton detectives, hired by the family, admitted there is no evidence to substantiate the murder theory. The shooting was not accidental, because of a safety catch on the revolver. Mrs. Rawn, for the first time, said she believed her husband met death by her own gun in struggling with burglar. No mention was made of Rawn's alleged connection with the Illinois Central railroad car repair graft. The inquest will be resumed tonight.

Taylor Pays Up

Will Taylor escaped a trial in police court this morning by paying \$50 by agreement on a charge of having sold liquor without a license at Iseman's wagon yard, Second and Washington streets, last Sunday. Taylor was fined \$20 several months ago on the same charge.

McK-Ilvey Will Get Clear

It became known today that Detective A. S. Donella, of the United States secret service of Louisville, returned home yesterday without sufficient evidence to justify a federal warrant against A. N. McKelvey, held here on a charge of counterfeiting. It is said that Detective Donella admitted that he did not have a case against the prisoner, other than the finding of moulds in his possession. It is thought McKelvey will go clear.

New York, July 28.—The announcement that a strong banking interest has taken control of the securities held by a pool headed by F. S. Pearson, an Englishman, composed of English and Canadian capitalists, caused a big advance on the stock market this morning. Heavy gains are reported from London. The reaction upward followed here, big interests again are buying the market. Immense buying orders are flooding the exchange.

RIOTING AND BLOODSHED IN THREE STATES WHERE STRIKEBREAKERS APPEAR

One Killed and Three Fatally Injured, Scores Wounded on Pier of American Sugar Refining Company.

OHIO'S CAPITAL PRACTICALLY UNDER MARTIAL LAW—GRAND TRUNK GUARDED BY SOLDIERS IN MICHIGAN

National Guardsmen Stoned by Strike Sympathizers as They Take Train at Hamilton—Local Authority Defied.

New York, July 28.—One identified man was killed and three fatally shot, three seriously shot and more than a score beaten, in a riot on the pier of American Sugar refining company at Brooklyn today. More than 10,000 persons gathered in the vicinity. Police reserves were rushed to prevent further outbreaks. All the injured men are strikers. It is said shots were fired by 50 armed special police. Eight hundred strikers and sympathizers, 50 special officers and 60 strikebreakers were in the riot.

The dead is Walla Novotovsky, H. A. Morgan, cashier of the refinery, is arrested in connection with his death, on complaint of two strikers who say they saw him fire a revolver.

Military Sent. Detroit, July 28.—Four companies of the first battalion, First Infantry, were rushed this morning to Durand, Mich. The situation of the Grand Trunk strike is beyond local officials. A battalion from Grand Rapids also was sent on advice of Governor Warner. The militia was ordered out last night, after Sheriff Watson's sworn statement that the strikers' completely stopping traffic. It is impossible to get deputies at Durand. Residents sympathize with the strikers.

The troops are equipped with five days' rations and 100 rounds of ammunition, and ordered out after the sheriff's sworn statement that strikers have intimidated all Grand Trunk strikebreakers, stopping traffic was received. The sheriff said it is impossible to get deputies as residents sympathize with the strikers.

Buffalo Is Tied Up. Buffalo, July 28.—The Grand Trunk strike situation is acute here. Strikers are active and traffic is completely tied up. They burned two freight cars last night. Fifteen hundred cars of freight are waiting to be moved.

The Life Is Passed. Toronto, Ont., July 28.—The statement of Grand Trunk officials that striking employees had asked to be taken back in a body and the request had been refused, was denied today by strike leaders, who declare no offer of settlement was made, except on terms of arbitration.

The Grand Trunk waiting room at the station at Annapolis, outside Bridgeport, Ont., was destroyed by fire today. It evidently has of incendiary origin. Strike sympathizers are believed to be responsible.

Columbus Under Military. Columbus, O., July 28.—State troops are arriving this morning to aid city authorities to check the rioting, which began four days ago when the Columbus Railway and Light company attempted to operate cars with imported strikebreakers. The situation has passed control of the police. No cars are running.

Attack Militia. Hamilton, July 28.—Strike sympathizers threw iron bolts at members in the Third regiment National guards this morning, waiting for a train to Columbus.

Monus to New York. Will Carry All the Passengers Hooked for Trip. New Orleans, July 28.—It was announced tonight that the Monus would leave on the return trip to New York tomorrow morning, carrying all passengers originally booked for the passage north.

This afternoon many of the passengers who passed through the fight with the flames off the coast of Florida last Saturday framed a set of resolutions thanking Capt. John S. Boyd for what they termed his "heroic kindness at sea."

Desperation Drives to Murder and Suicide. New York, July 28.—With a dispossessed notice on the table before him, Abraham Roth, a tailor, living on the fourth floor of a tenement, in the presence of five crying children, alone beheaded his wife with a pruning knife today and then cut his own throat. The woman fell on the floor escape to the second floor where a number of persons were sleeping, and died. Roth has little chance of recovery.

Blacknall Case Continued. The trial of C. E. Blacknall, proprietor of a restaurant at Eleventh street and Broadway, charged with selling liquor without a license, was continued to August 1 owing to the illness of the defendant.

Fire Kindled in New Foundry. Fire were kindled today in the new foundry department of the Lack Singletree company, and it is expected to start operations next Monday. For several months the company has been busy transferring the machinery and equipment from the Lack Singletree company, and it is expected to become one of the largest industries in the city. There is a splendid market in the south for the product and considering everything the products can be manufactured as cheaply in Paducah as in any other location. In a short time, it is expected, the company will employ 50 people.

Course of True Love. Oklahoma City, July 28.—Mrs. Daisy Fisher shot and killed B. W. Smythe at her home here today. Mrs. Smythe says he was an old adulter who had haunted her for ten years. He demanded admittance to the house and Mrs. Fisher fired four shots into his body.

Flourishing a Gun. Wanted on a charge of pointing and flourishing a pistol, Maxnard Stovall, colored, surrendered to Captain Frank Harlan at police headquarters today. He is alleged to have created a row with a gun on July 23 at the colored resort, 314 Kentucky avenue.

Shocked by Lightning. Paris, Tenn., July 28.—Tuesday morning, between midnight and day, a severe electrical storm swept over this section, but did slight damage. The only thing of a serious nature reported was that of Clifford Dunn, a young man, who was severely shocked.

Move to Padland. Mr. and Mrs. Robert Thompson, who formerly resided at 2024 Broadway, have removed to Amorillo, Texas, where they will reside with their son, Aubrey Thompson. Mrs. Thompson is in ill health, and she removed to Texas in the hope that the climate would benefit her.

Waives Examination. Sam Matthews, who was arrested last night by Special Patrolman Jack Roush, of the Illinois Central Railroad company, on a charge of petit larceny, waived an examination in police court today and was held over to the grand jury with \$100 bond. He was caught stealing coal from a car in the south yard.

Police Ordered to Board Vessel. Armed with warrants for arrest of Dr. Clifton and companion.

Farther Point, Quebec, July 28.—That Canadian police are in possession of facts not made public regarding the whereabouts of Dr. Clifton and Miss Leneve is intimated by the arrival of Chief McCarthy and Inspector Denis of the provincial police today, ordered here by the attorney general of Province. They have warrants and orders to board the Montrose and arrest the couple, if found.

The laureate, with Inspector Dew aboard, passed Belle Island this morning and will reach Rimouski Friday afternoon. Dew will disembark and aid the police search the Montrose for the couple.

Transfer Boat Duncan Is Ready. Most of the work of the Illinois Central transfer steamer Duncan, which will ferry trains between Paducah, Brookport and Metropolis pending the erection of the Metropolitan bridge, has been completed.

This morning M. K. Barnum, superintendent of motive power, and R. W. Bell, superintendent of machinery, of the Illinois Central railroad, arrived in the city from Chicago and made an inspection of the transfer boat. Captain Ed Howard, the veteran steamboat builder, has inspected the Duncan and said that she is one of the best wooden transfer steamers that he has ever seen. The boat is of sufficient weight to carry a large tonnage.

City Is Cutting Weeds. The city is setting the example for private property owners by cutting the weeds on city property. Under the direction of the board of public works, Street Inspector E. E. Bell has out two squads of weed choppers in the interest of the public health as well as civic pride all citizens are requested to keep their premises clear of weeds.

No Opposition to Bridge, Now. RIVERMEN SATISFIED TO SECURE PROPER LOCATION OF HURLINGTON'S PIERS.

No further opposition to the width of the spans of the Burlington bridge at Metropolis promised by the river interests. The rehearing at St. Louis settled all of the objections to the bridges, and the river men are well pleased with the privilege extended them of locating the piers. This morning Mr. C. M. Riker, general manager of the West Kentucky Coal company, stated that he knew there would be no more objections. By having the main span 720 feet in width a steamboat with a large tow will be able to pass under the bridge at any angle. With lights on the piers at night the span will be sufficient width to enable the pilots to judge his distance and pass under the bridge.

Games Today and Tomorrow.

Clarksville at Paducah.

Hopkinsville at Harrisburg.

Vincennes at Harrisburg.

Clarksville, Tenn., July 28.

Tough luck lost the game to Clarksville yesterday by a score of 1 to 0.

With the splendid twirling of Floyd the Indians clearly deserved the victory, but a lucky hit by "Cy" Lambert broke up the game and let in the winning run. Bailey pitched grand ball for the Volunteers.

Clarksville won the game in the eighth inning. Laitner was first up and got a hit. Floyd fanned the next two batters, and then Lambert walked to the pan. "Cy" had two strikes and two balls called on him, and the signal was given to Floyd to walk him. "Rube" threw one foot from the pan, but it was just to the liking of Lambert, who reached out and caught it on the end of his bat and drove in the winning run. Block

put up a fine fielding game for the Indians, and accepted six difficult chances in right field.

Both Floyd and Bailey were in fine form. Bailey allowed only four hits while Floyd was touched up for only five safe runs, but the bunching of two safe runs in the eighth inning resulted in the victory.

Vincennes Shut Out.

Harrisburg, Ill., July 28.—By the score of 1 to 0 Harrisburg defeated Vincennes yesterday afternoon in one of the prettiest games ever played on the local lot. "Crazy Snake" Calbert was in rare form and the Vincennes sluggers were powerless before him. The only score made was a result of a bunt by Dairrell. He was sacrificed, and scored on a long fly to the outfield.

Hopkinsville Braves.

McLeansboro, Ill., July 28.—In an uphill battle yesterday afternoon Hopkinsville won out by a batting rally, and maintained her lead in the percentage column. McLeansboro apparently had the game safe until the seventh inning when the Kentuckians scored six runs. Von started the game for the Hoppers, but was touched up lively, and Deems was substituted. Kraft started to work in the box for McLeansboro, but the visitors got after him so hot that Beck was called for slab duty.

Hooks Vs. Hookport.

Manager Zha Williams and his champion B. B. Hooks will journey to Brookport next Sunday for an engagement with the Eagles. The Hooks are about the fastest amateur team in the city, and have defeated some of the crack teams of western Kentucky. The Hooks will line up: Wagner, c; Council, p; Henneberger, lb; Harper, 2b; Cox, 3b; Monroe, ss; G. Harper, lf; Williams, cf; and Hanners, rf.

Baseball Chaff.

The Indians returned this morning from Clarksville after dropping two out of three with the Tennesseans. The Indians are back on the reservation for a stretch of games. The warriors hope to climb up the percentage column by winning a majority of the games.

"Dummy" Payne is back in the game again. Payne still has a black eye as a result of being struck by a bad bounding ball.

"Chief" Angermeyer has a kid brother in the Bluegrass league that is considered the best backstop in the league. He is catcher for the Frankfort team, and besides being a clever fielder, is leading the team in hitting.

Zeke Taylor has been playing the outfield at Clarksville, and putting up a fair game. It is said that his hitting has not been as hefty as expected.

Blue is back in the fold, and arrived with the Clarksville team today. Phillips, who has been doing the backstopping, has been released. Andrew McWilliams is now the field captain of the Clarksville team. McCance quit the job because of the worries and troubles of a manager.

Woodring and Block will be the battery for today's game, while probably Hoyt and Blue will work for Clarksville.

"Chief" Angermeyer is still directing the team from the bench as his injured back will not permit him getting in the game.

Clarksville is here for two games and then comes McLeansboro for

three games. A monster crowd is promised for Sunday as McLeansboro the first baby team, will be on the program.

Pat Runyan who has been pitching the best kind of baseball probably will tryout with the Indians. It is expected that he will work in Sunday's game. Runyan went to Morganfield today to pitch a game against Marion.

"Rube" Floyd had everything yesterday that makes a good twirler, but luck was against him.

Harris arrived with the Tennesseans this morning, and probably will work tomorrow. Harris is a favorite in Paducah, and plenty of fans will go out to see him perform.

Notice.

Cracken and Adjoining Counties: Gentlemen:—You are hereby notified that the books for the reception of membership to the Planter's Protective association will close on the 5th day of August, 1910, and, whereas, we must have 50 per cent of all the tobacco grown in the counties now represented in order to retain membership in the organization. Thereupon it is necessary that each of you see your precinct chairmen, whose names appear below, and pledge your tobacco to the association at once. Gentlemen, be wise and act promptly in this matter:

LIVESTOCK.

Louisville, July 28.—The receipts of sheep and lambs were 11,526 head, the second largest day's receipts of the season, making a total of 21,319 for the three days this week, 11,816 for the same days last year and 13,792 for a corresponding period two years ago. The market was slow and lower. Top lambs 7c; the second 6c 5/4c; ewes 3 1/2c 4 1/4c; fat sheep about 3 1/2c down; common thin sheep very dull. Some demand for prime to fancy stock ewes; plain and common ewes slow sale.

Hogs.

Receipts 890 head; for the three days this week 1,774 head. There was a very good demand for all weights this morning, and with some improvement at other points, sellers boosted the price 5c on all grades. Selected heavy hogs, 200 pounds and up, selling at \$8.65; medium weights, 165 to 200 pounds, \$8.95; light shippers and heavy pigs, 90 to 165 pounds, \$9.15; light pigs, \$8.15; roughs, \$8.05 down. The pens were well cleared and the market closed steady.

Cattle.

The receipts of cattle today were only 48 head, making a total of 1,345 for the three days this week. There was a very small crowd of local traders and butchers on the yards this morning, the demand was down to a minimum and the market generally was exceedingly quiet from start to finish, with but little change to be noted in values or conditions. There was some demand for prime to choice light butcher cattle at around steady figures, while the medium and inferior kinds were not sought after and extremely slow to change hands, the tendency being toward a shade lower prices. Crazy half fat (intermediate kinds) steers, ranging from 900 to 1,100 pounds, are still poor property and slow to change ownership; prices not at all satisfactory to the selling contingent. There is some demand

for prime feeders and good stock cattle at prices that will tally up pretty well with Monday, but the medium, plain and common kinds are slow sellers. Good bulls steady; common bulls and canners slow and drab. Milch cows slow. No prime heavy cattle here; the feeling was weak to a shade lower.

Calves.
Receipts 179; for the three days this week 365. The market ruled about steady, the bulk of the best 7 1/4c 8c; some few fancy 8 1/4c; medium calves 6c 7 1/4c; common 3c 6c.

81. Lambs.—Cattle—Receipts 5,500, including 2,500 Texans; market steady; native beef steers \$5.75 6c 8c; cows and heifers \$3.50 6c 7c; stockers and feeders \$3.25 6c 5c 50; Texas and Indian steers, \$4 7/8c; cows and heifers \$3.50 6c 5c; calves in carload lots \$5.50 6c 9c.

Hogs—Receipts 6,500; market steady; pigs and lights \$8 9/10c; packers \$8 9/10c; butchers and best heavy \$8 65c 8 80c.

Sheep—Receipts 4,500; market steady; native muttons \$3.75 4c; lambs \$6 25c 7 40c.

News of Theatres

At the Star Theater.

An entirely new program commences this afternoon at the Star for the last three days of this week. The act that will make the children's hearts glad and for that matter make the grown-ups happy will be the Lenoir's Marionettes. This act is one of the biggest novelties the Star has ever put on and is a sure go.

Barrette & White have a refined singing act with a whole lot of rapid fire comedy introduced.

An illustrated song by Frank Long and two fine reels of motion pictures go to make up a fine program. Admission 10c, children 5c.

PRIMARY CALLED BY DEMOCRATS

CITY TICKET WILL BE SELECTED
SEPTEMBER 8.

County Committee Had No Quorum
and Matter of Nominating
Coroner Is Deferred.

ALDERMAN LACKEY SECRETARY

Without any members to spare, a quorum of the Democratic city committee was secured last night at the meeting held in the city hall. The meeting was postponed from last Saturday and for a while it looked like another postponement might be necessary. However, sometime after 8 o'clock a majority of the committee was secured and the city committee got down to business. Only two proxies of the members of the county committee were present, and the meeting of that committee was postponed until a later date.

It was decided to hold a primary for the election of Democratic nominees to fill vacancies existing in the general council and school board on September 8. Everything had been mapped out before hand, and no opposition to the primary was heard. Police Judge D. A. Cross made a short speech in which he advocated the holding of a primary for the election of nominees. He said that it would be more satisfactory to the voters. Mr. James M. Lang made the motion that a primary be held which was seconded by A. H. Patten. A date was not suggested for several minutes, but Mr. Fred McCreery made the motion that the date be set for September 8, and it was accepted by the committee.

Mr. James McLaughan made a motion that the primary be held under the party laws, and that a committee be appointed to make all of the necessary arrangements. Chairman W. F. Bradshaw, Jr., appointed James M. Lang, Frank H. Smith and James McLaughan as members of the committee.

Owing to his absence from the city, James P. Sleeth resigned as secretary of the committee, and Alderman Ernest Lackey was selected unanimously to the vacancy. Those present were: Pete Elch, James McLaughan, J. M. Cross, Frank H. Smith, D. M. Whittle, Fred McCreery, A. H. Patten, James M. Lang. The proxy of J. J. Lally was held while the proxies of W. A. Middleton and O. W. Rawlinson were held.

The Ticket.
Four aldermen, eight councilmen and eight school trustees will be nominated.

CITY ORDINANCE

AN ORDINANCE ASSESSING THE ABUTTING PROPERTY ON BOTH SIDES OF FOUNTAIN AVENUE FROM MONROE STREET TO THE HINKLEVILLE ROAD, IN THE CITY OF PADUCAH, KENTUCKY, THE SUM OF \$1,732,259 PER FRONT FOOT FOR THE COST OF THE CONSTRUCTION OF CONCRETE SIDEWALKS AND GUTTERS, TOGETHER WITH GRANITE CURRING AND ALL SEWERS, MANHOLES, INTAKES, CATCH BASINS AND DRIVEWAYS IN SAID CONSTRUCTION, EXCEPT THAT PORTION PAID BY THE CITY OF PADUCAH; AND PROVIDING THAT SAID ASSESSMENTS MAY BE PAID IN TEN EQUAL INSTALLMENTS, ONE EVERY YEAR FOR A PERIOD OF TEN YEARS.

Whereas, The General Council of the City of Paducah, Kentucky, has heretofore, to-wit: September 9th, 1909, adopted an ordinance entitled, "An ordinance providing for the construction of sidewalks, curbs and gutters, and the necessary sewers, manholes, intakes, and catch basins on both sides of Fountain Avenue, or Seventeenth Street, from a point where same intersects the North curb line of Monroe Street to a point where same intersects the Circle around Lang Park; thence around said Circle and out Fountain Avenue, or Seventeenth Street, to a point where same intersects the South curb line of Trimble Street, in the City of Paducah, Kentucky;" and,

Whereas, In accordance with said ordinance it was provided that the said cost of construction of said sidewalks, curbs, gutters, sewers, intakes, manholes and catch basins, should be paid for by the abutting property holders on both sides of said street, except the intersections of streets and public alleys; and,

Whereas, In pursuance thereof a contract was entered into between A. J. Miller & Son and the City of Paducah for the construction thereof; and,

Whereas, Said contract has been completed and the work thereof finished and accepted by the General Council of the City of Paducah according to law; now, therefore,

Be it ordained by the General Council of the City of Paducah, Kentucky:

Sec. 1. That all of the property on both sides of Fountain Avenue from a point where same intersects

the North curb line of Monroe Street to a point where same intersects the South curb line of Trimble Street, or the Hinkleville Road,—is hereby assessed the sum of \$1,732,259 per front foot, for the cost of construction of said sidewalks, curbs, gutters, sewers, manholes, intakes, catch basins, and driveways.

Sec. 2. That all of the funds derived from the assessment of said property, as aforesaid, shall be used for the purpose of paying off the special tax bills issued against said property, and for the cost of construction of said work.

Sec. 3. That pursuant to Section 3101 of the Kentucky Statutes, as amended and re-enacted by an act of the General Assembly of the Commonwealth of Kentucky, for 1910, entitled, "An Act to Amend and Re-enact Sections 3094, 3096, 3097, 3098, 3099, 3100, 3101 and 3102 of the Kentucky Statutes, relating to the control and improvement of streets, public ways, landings, wharves, grounds and sidewalks in cities of the second class";—said assessments may, at the option of the property owners, be payable in cash, without interest, within thirty (30) days from the date of the passage, approval and publication of this ordinance, or in ten (10) annual installments, pursuant to the provisions of said section.

Sec. 4. In order to provide a fund for the immediate payment of the cost of that portion of the special assessments herein provided for,

and which are to be paid upon the installment payment plan, as hereinbefore provided for,—the General Council shall issue and sell Improvement Bonds in anticipation of the collection of said special tax bills, which are to be paid upon the installment payment plan, and to secure the payment of which bonds there is hereby pledged such taxes and liens on the property for the payment of the principal and interest of such bonds, and such bonds shall be sold for not less than par, and the proceeds thereof applied exclusively to the payment for the improvement of said sidewalks, curbs and gutters, hereinbefore mentioned, and such bonds shall be issued in accordance with, and shall bear interest in accordance with, and shall be payable in accordance with Section 3102 of the Kentucky Statutes, as amended and re-enacted by the General Assembly of the Commonwealth of Kentucky, of 1910, and contained in an Act, entitled, "An Act to Amend and Re-enact Sections 3094, 3096, 3097, 3098, 3099, 3100, 3101 and 3102 of the Kentucky Statutes, relating to the control and improvement of streets, public ways, landings, wharves, grounds and sidewalks in cities of the second class."

Sec. 5. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Aviator's Craft Turns n Complete Somersault.

New York, July 27.—After his aeroplane had turned a complete somersault, falling to the ground with him during a flight near Gar-

den City, Long Island today, George Russell poked himself up and emerged from the debris without a bruise or a scratch.

When he undertook to rise the soft soil caused the tail of his biplane to swerve. The aeroplane reared straight up, turned a clean "back flip" and came down on its back with the engine on top. Russell was flung head over heels and fell into a tangled nest of wires.

Shorter Store Hours

Modern ways of store keeping make it possible for men and women to do as much shopping in an hour as their grandparents could do in several hours. It is because we believe that the worker is entitled to share in rewards of labor saving and time saving inventions that we inaugurated the Friday half holidays during the summer months for the benefit of our employes. We do not claim leadership for this; we are following the custom of many places even smaller than Paducah. We wish, in behalf of our clerks, to thank our customers who have done their shopping on Friday mornings, as it has encouraged us to continue the custom.

The following are some of the special bargains which we will have on sale Friday morning from 7:30 to 1:30.

Daily Thought.

There are two good rules which
ought to be written on every heart:
Never believe anything bad about
anybody unless you know it is true;
never tell even that, unless you feel
that it is absolutely necessary.
—Henry Van Dyke.

Truth is stranger than fiction—to
a great many people.

Somebody ought to tell Senator
Aldrich what Senator Bryan is say-
ing about him.

What a sensational piece of news
the society editors would have if
some day they should report some-
body "visiting strangers and
enemies."

In Texas, where they nominated a
wet candidate for governor on a dry
platform; in Tennessee, where Gov-
ernor Patterson and the supreme
judges are warring on the stump;
in Illinois, where their county con-
ventions are denouncing their repre-
sentatives in the legislature; in Ne-
braska, where Bryan and his follow-
ers already are predicting defeat,
the row between Republican Regu-
lars and Insurgents is not interesting
the Democratic party much.

GRAVES COUNTY WANTS POS-
TAL SAVINGS BANK.

The Mayfield Messenger is wildly
smiling in charging Postmaster Gen-
eral Hitchcock with indifference to-
ward the postal savings bank. Mr.
Hitchcock belongs to the party that
endorsed the postal savings bank in
its national platform and that
enacted the law, providing for it.
Just now Postmaster General Hitch-
cock is spending his vacation in
Europe, studying the systems in use
there. It is easy to say "postal sav-
ings bank," but the institution can-
not be established by word of mouth,
neither has the postmaster general
a fairy wand, which he could wave
and, behold the postal savings bank
would spring up like the flowers in
the May time all over the glad land,
such as it was proposed to wave and
make silver dollars grow on every
shrub and vine in the country. By
the way, dollars, or their equivalent,
are growing on about everything in
the vegetable kingdom, indigenous
to the soil and climate of Graves
county, aren't they, Jim?

MR. BRYAN AND HIS PARTY.

It won't pay to be too sure that
Mr. Bryan has lost his political in-
fluence, because a delegate conven-
tion apportioned his plank. Mr. Bryan's
influence has not always been with
the politicians. They generally take
up, whoever they think will be popu-
lar with the mass of voters, and it
is questionable whether the voters
have all ceased listening to the voice
from Rio Platte. Mr. Bryan urged
with all the vehemence and elo-
quence he could command the adop-
tion of the Nebraska Democratic
platform of a plank, advocating the
county local option, until the re-
fused to compromise. He said he
expected to be beaten; but it was
the party's only hope of winning
the approaching election. The con-
vention voted down, not only Mr.
Bryan's county unit plank, but also
an anti-county unit plank, and pro-

WHAT CONGRESS DID

Following are the laws enacted by
the last congress:

The Payne tariff act, provides re-
venue, establishes maximum and min-
imum tariff, and creates customs
court.

Philippine tariff act, giving free
entry to Philippine products entering
the United States.

Proposed income-tax amendment.
Ballinger-Pinchot investigation.
Extension of time to establish res-
idence to homesteaders.

Fifteenth International congress
on hygiene and demography.
United States bonds and certifi-
cates to be made payable in gold
coin.

New land district in Montana.
Prescribing scope for census in-
quiries.

Appropriate marking of graves of
Confederate soldiers and sailors.
Tonnage duties.

Articles of war.
Furnishing tents to Confederate
Veterans' reunion.

Temporary withdrawal of public
lands.

Additional land districts in Ore-
gon.

Enlarging scope of inquiry in pop-
ulation schedules of census.

Suppression of white-slave trade.
Additional time for payment by
purchasers of homestead lands.

Employers' liability act.

posed a settlement of the question
by the initiative and referendum, a
system not in existence in Nebraska,
on the plea that the delegates do
not consider the local option issue
a proper one for party expression.

It makes little difference whether
or not the Democratic organization
of Nebraska considers the county
unit a proper issue; the Republican
party of Nebraska has endorsed it,
and the county unit will be an issue,
any way; and the Democratic party
will find itself, not in the middle of
the road, as the leaders fondly
imagined, but in the middle of a
bog. No claim to sincerity can be
made on that recommendation of
the initiative and referendum, which
does not exist; and the party will
never hold its own county unit vote
on that issue.

On other issues it is just as bad
off. The Republican progressives
won, endorsing Taft and his tariff
commission and all the reform mea-
sures, and condemning Cannon and
Aldrich. Let us look ahead; suppos-
ing the Democrats lose in Nebraska,
having failed to heed the words of
Mr. Bryan, won't they come flock-
ing back to the Gage of Fairview in
their distress?

Mr. Bryan has a shrewd way of
giving his party plenty of rope to
hang itself, and arriving on the
scene just in time to pose as the
rescuer. He did that when he re-
linquished the leadership of national
Democracy to Alton B. Parker for a
season. Next time it was Bryan the
Peerless One, and a chastened party.
When November comes, we'll see.

IS PROGRESSIVE A POLICY OR A
NICKNAME?

To those, to whom the word Pro-
gressive is associated only with the
names of a choice few—Garfield,
Pinchot, Glavin, Bristow, La Fol-
lette, Beveridge, Murdoch—it comes
easy to say the progressive element
of the Republican party was defeat-
ed in Ohio. Yet, Garfield never had
a look-in, "Boss" Cox stood by Judge
Brown of Dayton, until Brown's
chance all disappeared and the
nomination went to Warren G.
Harding, the man, who had the
largest number of county delega-
tions pledged to him from the start.
The delegates simply tumbled over
one another trying to get into his
band wagon when all their combina-
tions failed.

We take it, the word Progressive
is applicable to those, who espouse
progressive measures and policies,
and the keynote speech of the Ohio
convention delivered by Nick Long-
worth even went so far as to com-
pliment Victor Murdoch and James
Garfield, Insurgents of Insurgents.
The platform adopted speaks for it-
self. If anything can be more in-
telligently progressive than the fol-
lowing propositions, we are open to
conviction:

"We, the Republicans, of Ohio, in
state convention assembled, com-
mend in highest terms the splendid
administration of William H. Taft,
are proud of the results he has al-
ready achieved in his seventeen
months of office, and pledge him our
heart and united support in his
further efforts as chief executive of
the nation. We renew our pledge of
loyal support given him in 1908 and
endorse him for renomination in
1912.

"Among the many accomplish-
ments of President Taft's adminis-
tration worthy of special praise are:
prosecution and conviction of those
implicated in the sugar frauds
against the government and other
violators of federal statutes; prompt
and successful intervention to pre-
vent arbitrary increases in railroad
freight rates; effective enforcement
of the law against illegal dealing in
stocks; indictment of those involved
in the cotton pool, formed to raise
the price of one of the necessities of
life in every American family; im-
partial enforcement of the anti-trust
law; substantial reduction in gov-
ernment expenses, saving a million
dollars a month in the postoffice de-
partment, with a fair promise of

"It has strengthened our prestige
with foreign nations, and has treated
with vigor and wisdom important
and delicate international problems.
It has dealt justly and liberally with
our dependencies.

"The record of achievement of
this administration and the Sixty-
first congress is unequalled in our
history, and guarantees faithful ad-
herence to all the pledges of the
last Republican national platform.
The election of a Republican con-
gress next November is imperatively
necessary to accomplish the entire
program of the Taft administration.

"The tariff has been revised in
accordance with the Republican doc-
trine of protecting home industries
and American labor. It did not raise
the rate of duty on a single common
food product. The increases made
were on luxuries and articles not of
ordinary use. It affords no more
than adequate protection to the in-
dustries of the nation and is fair
alike to consumers, laborers and
producers.

"No tariff bill was ever more un-
justly assailed. It has justified the
expectations of its friends by turning
a national deficit into a surplus,
while at the same time reducing the
average rate of all duties. Its maxi-
mum rates have operated to give us
for the first time equality of oppor-
tunity with other nations in our for-
eign trade.

"The Republican party, through
congress and the president, has
given free trade with the Philip-
pines, with such limitations as to
sugar and tobacco as will afford pro-
tection to domestic industries, and
has established a customs court.

"Recognizing inequalities due to
changing conditions or that other-
wise may be found to exist, congress
has provided a tariff board, with an
ample appropriation, for the investi-
gation of the differences in the cost
of production at home and abroad,
so that if any rates are found to
be higher than necessary to afford
labor a high wage and capital a fair
return, those rates will be reduced."

"We favor legislation which will
revive our merchant marine; the
equal enforcement of all laws; an
adequate national defense, with a
navy ample to protect all our in-
terests at home and abroad, while
favoring arbitration in the settle-
ment of international disputes; the
systematic, comprehensive and busi-
ness-like improvement of our rivers,
harbors and waterways, and such
amendment of the anti-trust laws,
and such amendment of the anti-trust
law as final judicial interpretation
proves to be necessary for the prop-
er regulation of monopolies.

"We commend the action of con-
gress in the creation of a commis-
sion to investigate the question of
employers' liability laws and work-
men's compensation acts, and to
make recommendations to the presi-
dent and to the congress. We be-
lieve that industrial accidents to
workmen should be treated as in-
evitable incidents to industrial oper-
ations, and the compensation there-
for as a part of the cost of produc-
tion. The experience of other
countries demonstrates that this
principle can be applied to our in-
dustrial conditions without increasing
the burdens of industry.

"We endorse the principle of con-
servation of our natural resources,
and cordially endorse in enacting,
of the present congress in enacting,
of President Taft in approving legis-
lation along this line. We prefer
particularly, first to the act of con-
gress conferring upon the president
power to withdraw public lands
from entry and settlement
whenever the public welfare de-
mands; and, second, to the act
separating the surface from the coal
and authorizing agricultural home-
stead entries on lands heretofore
withdrawn from entry or settlement
under coal land classification. Under
this act millions of acres of the pub-
lic domain can be entered by hom-
esteaders and limited patent to the

surface granted, reserving the title
to coal in the federal government for
future disposition in accordance
with law.

"We demand the enforcement of
existing laws and the enactment of
new laws for the protection, wise
use and conservation of the natural
resources under the control of the
federal government. These resources,
such as the coal deposits of Alaska,
water power and reservoir sites,
should be developed under a system
by which any abuses of monopoly
can be avoided, extortion from the
consumer prevented and just com-
pensation to the public obtained."

"An employers' liability law was
passed by the present legislature and
a commission was appointed to in-
quire into a workmen's compensa-
tion law. We favor such a law as
will be just and fair to all con-
cerned."

Other planks are for:
Limiting the tax rate for all pur-
poses to ten mills; supervision and
regulation of all public utilities by a
commission, guarding to municipal-
ities the right of home rule and to
the people the right to vote direct on
the granting of public franchises;
legislation for establishing good
roads; protecting of labor; a state
law requiring the publicity of cam-
paign contributions; the ratification
of the income tax amendment to the
federal constitution; individual pun-
ishment for corporate offenses; the
calling of a constitutional conven-
tion to draft a new state constitu-
tion.

I. C. MANAGEMENT PROPOSES
EMPLOYEES TO ENTER.

Asks Its Forty Thousand Men to
Make Railroad's Interests Their
Own.

Chicago, Ill., July 28.—The man-
agement of the Illinois Central,
through its vice president, W. I.
Park, has issued an appeal to its 40,-
000 employees to make the railroad's
interest their own and do all in their
power to educate the people to the
idea that the railroads need more
revenue. Mr. Park makes the state-
ment that the physical condition of
American railroads, with a few ex-
ceptions, is far behind those of Great
Britain and Continental Europe, and
that large sums of money are now re-
quired to rebuild systems. He asks
the employees to realize that an at-
tack upon the railroad is an attack
upon them; that it is a financial im-
possibility for the railroads to con-
tinue to meet the demands for in-
creased wages unless their earnings
are bolstered up by increased rates.
He asks that the employees make
those in authority understand that
fair treatment must be accorded the
railroads "for the employee will enter
the political field and return to office
men who will put the railroad com-
panies on the same plane that other
corporations and individuals now oc-
cupy"; that they show legislative
bodies that it is absolutely unfair to
curb the prices that railroad com-
panies charge for transportation and
at the same time permit those who
sell to the transportation lines to
pull off the bribe when fixing prices
for their commodities.

Cool Kitchen—Perfect Cooking

The housewife with years of experience—the woman who knows how to cook—finds, after practical tests and hard trials, the New Perfection Oil Cook-Stove is her idea of what a good cook-stove really ought to be.

She finds it requires less attention, costs less to operate, and cooks all food better than any other stove she has ever tried.

She finds the New Perfection oven bakes and roasts perfectly. The

LOST ARCHDUKE LIVES IN PARIS

FAILED TO GET LOAN TO CARRY ON HIS ENTERPRISES.

Man Who Sacrificed Millions to Wed an Actress Seemed to Be Clear-Headed Business Man.

WAS IN NEW YORK LAST JUNE

New York, July 28.—The lost John Orth has been located. At least a man calling himself John Orth—name taken by the Archduke Johann Salvator of Austria twenty years ago when he disappeared after pronouncing his title and vast wealth to marry a Viennese opera singer—was in New York no later than last June.

Under the name of the "Baron de Ott," this man stopped at the Hotel Netherland and the distinguished bearing of himself and his wife—a beautiful woman of forty—won them many friends. The baron and his wife mentioned the fact that he was John Orth only to a few persons with whom they became intimate in their short stay in this city.

Baron de Ott made an especial effort to secure introductions to several prominent financiers and did succeed in meeting many men from the Wall street district. To them he said he owned vast tracts of land in the Argentine republic near Buenos Ayres, where he had been living for the past few years. He mentioned at least two other projects in which he said he was interested. These were both located in the northern part of the American continent.

Never Got His Loan.

In New Brunswick, said the baron, he had located a bed of shale which was found to yield a rich return in petroleum. He was also a director, he said, in a company formed to build a railroad from the Hudson Bay country to the Pacific coast.

To finance these projects the baron said he needed a sum of ready money. He said he should require \$125,000, but that if that sum was not forthcoming he might make ends meet on \$25,000. As security he offered his land in Argentina, the value of which he placed at many thousands of dollars.

Although he met many persons of influence here, including Edward Wasserman of the firm of Wasserman Bros., at No. 142 Broadway, and Edward Lauterbach, the lawyer, the baron was unable to negotiate his loan. This was not because the integrity of the baron was doubted, explained one of the men who was intimate with him today, but simply because money was tight and times hard.

Good Business Man.

Baron de Ott, after he had made a short trip to New Brunswick and returned to New York, and found it was impossible to negotiate the loan he required, sailed with his wife for Europe early in June. They went direct to Paris, where they are at present sequestered at No. 62 Rue Camartin. It is possible that "John Orth" may go to Austria to claim his fortune, which now must amount to many millions of dollars. It is presumed that he knows of the recent decision of the high chamberlain's court, which declared, at the instance of Archduke Joseph, the nephew of the man who has been missing two decades, that it will assume that "John Orth" is dead and order the distribution of his property unless proof of his existence is forthcoming within six months.

One of the men who met the "Baron de Ott" on the latter's recent visit to New York, said that he believes the baron is "John Orth."

"The baron was not attempting to make capital on his name," said the man. "He offered a plain business-like proposition to hard-headed business men, and it was only because of the stringency of currency that he did not secure his loan."

Story of Romance.

"I met the baron both socially and in a business way and found him a very enjoyable man. His wife too, was a woman of rare refinement. Both were distinguished persons of middle age and extraordinary culture. He seemed about 50 years old and she 40. Both were unusually handsome."

"The Baron de Ott, or John Orth, as he told me he was, was a very pleasant gentleman," said Edward Lauterbach today. "His is a romantic story, and I hope he claims and gets his fortune."

Mr. Lauterbach received a letter from "John Orth," dated Paris, in today's mail. Its contents he could not divulge.

The story of the missing grand duke is one in which romance and mystery crowd each other for the leading role. In 1889 he renounced his position and all that it entailed to marry Mlle. Steubel, a fascinating variety actress. The archduke announced that love of the girl and hatred of militarism influenced him in giving up everything and marrying the actress.

"I claim only the right to work," he said, and then left Vienna.

Druggists say this new medicine is already out-selling any similar preparation, which seems a good recommendation. A prominent downtown druggist, speaking of the Barkola Globes treatment, said there is much satisfaction in handling such a medicine, for every one seems pleased with it. DEMOCRACY IS RENT IN TEXAS

PARTY SPLIT AS RESULT OF SATURDAY'S PRIMARIES.

Although "Wet" Governorial Candidate Was Chosen, "Dry" County Committees.

SPLIT IS OVER PROHIBITION

Austin, Tex., July 28.—The Democracy of Texas is torn asunder by the results of the primaries of last Saturday. There are strong surface indications that a split in the party over the question of state-wide prohibition is imminent. It is reported that a conference of the prohibition leaders will soon be called with the view of outlining a plan of action.

The dissension of the party grows out of the fact that O. H. Colquitt, candidate of the anti-prohibitionists, has been nominated governor and that the proposition to make the submission of a constitutional amendment providing for state-wide prohibition to a vote of the people a demand of the platform of the Democratic party and therefore binding upon the legislature, was carried by a good majority in the primaries.

The political situation is the most remarkable in the history of Texas. The most intense interest attaches to the possible outcome of the state Democratic convention, which will meet in Galveston August 19. It will undoubtedly be in control of the prohibition element of the party.

The Defeated Unite.

According to information received here from various parts of Texas, there was a melting of the supporters of Cone Johnson, William Poindeexter and R. V. Davidson, the defeated candidates for governor, in many of the precincts in the selection of delegates to the county convention, which in turn are to choose the delegates to the state convention. In some precincts the Colquitt forces were strong enough to name the solid precinct delegates, but it is practically assured that the state convention will be largely dominated by the opponents of state-wide prohibition and that they will attempt to have the platform constructed to meet their own views.

The situation bodes plenty of trouble for Mr. Colquitt. This fact is admitted by his closest friends and supporters. The fact that a majority of the Democrats have declared for a principle which he opposes unalterably, and that he was nominated governor solely by the strength of this opposition to state-wide prohibition, make it impossible for him to accept the proposed plank of the platform. To do this would bring down upon him the condemnation of the very people who nominated him.

The anti-prohibition organization is very determined to defeat state-wide prohibition, no matter if a majority of Democrats have expressed a desire that the proposition be submitted to a vote of the people. With this organization, compromise or temporizing will not be tolerated. Should Mr. Colquitt, on the other hand, repudiate the submission plank of the platform, he would leave the way open for a split in the party and the placing in the field of a candidate against him by the prohibition element.

The argument is already being made by men who are looking at the possible development of the situation along this line that a declaration of platform demand that has received the vote of a majority in the primaries should be as binding upon a candidate who is making the race for governor as the primaries are upon the suffragist who participates therein. In other words, the prohibitionists claim that they would have just as much right to repudiate Colquitt as he would have to repudiate the state-wide prohibition plank of the platform. It is this general view of the situation that promises trouble at the Galveston convention.

The prohibition leaders are jubilant over the success of the submission proposition. They may that but for the mismanagement of their gubernatorial campaign in placing two men in the field for that office they would have nominated and elected the head of the ticket. Complete returns have not been received from the different legislative districts, but the claims are being made on behalf of the prohibitionists that they will have a good working majority and probably a two-thirds majority in both the house and senate when the next regular session convenes in January.

It is practically certain that the great fight for state-wide prohibition is now only fairly begun. Had the submission proposition been defeated an entirely different phase would have been placed upon the situation. It is not conceived that there is any middle ground which Mr. Colquitt can consistently take. He must take up the fight of the anti-prohibitionists and continue it unrelentingly. He has been chosen their leader and for him to pursue any other course would cause him a great loss of political prestige.

With the prohibitionists in control of the convention the nominee for governor and his chief supporters

may be permitted to take little, if any, hand in writing the platform.

Halley Intermediary.

In this connection it is expected that Senator J. W. Halley will be selected as the intermediary to bring the opposing factions together in the matter of agreeing on certain proposed planks of the platform. Mr. Halley, however, is not viewed in an acceptable light by many of the prohibitionists, particularly by those who supported Johnson for governor. He is regarded by many of them as having been largely instrumental in bringing defeat to the cause in the matter of the governorship through his personal and support of Poindeexter, and by this split of the prohibition vote, enabled the nomination of Colquitt. Mr. Halley has a persuasive way, and it is possible that if he is chosen as the agent of harmony he may be successful in bringing the two factions together at the state convention.

It is reported that Gov. Campbell may come out into the open and be on hand at the convention as the leader of the prohibitionists. His friends claim that he is still a powerful influence in Democratic politics of the state and that his presence at the convention as the leader of that element of the party that voted for submission would be of benefit to that cause.

It is a situation such as never before has arisen in Texas politics. Developments of a startling nature are not only possible, but, in the opinion of many well-informed and close-observing people, they are highly probable. Of course, some peace-maker who is equal to the momentous occasion may arise and quiet the threatening disturbance before it gets to the point of a volcanic outbreak, but at this time there seems to be little chance of any peaceful solution of the interesting problem.

OLLIE JAMES FOR PRESIDENT'S IDEA

FOUR BARREL METHOD OF DISTRIBUTION WRONG.

Systematic Development of Internal Waterways is Only Proper Method.

HE SANCTIONS TAFT'S WORDS.

Washington, July 28. (Special.)—

More and more it is becoming evident that President Taft struck a popular cord when he informed the congress of the United States, during the closing days of the last session, that legislators could expect a veto, if the next river and harbor bill was not framed with the view of eliminating piecemeal appropriations and appropriating for accepted projects in such amounts as would hasten their completion.

The latest member of congress to express himself as being heartily in favor of the president's policy toward the rivers, harbors and canals of continental United States is Representative Ollie M. James, of Kentucky.

Mr. James, who is an enthusiastic advocate of waterways, said yesterday: "The rivers should be made to work. The transportation problem is a great one and when our rivers can be made to do their part the question of freight rates will be settled, for competition is a greater regulator of rates than legislative enactments."

"There is no country in the world so blessed with river facilities of transportation and if we but improve that which is our natural heritage, the market place will be easily accessible without oppressive rates of transportation. Railroad rates can be reduced by this and all our people can be blessed."

"I believe President Taft takes the right position in favor of the comprehensive building of the waterways. The rivers and harbors bill ought to be a regular supply bill to meet this plan. It ought to be one that rests upon merit and not upon political power; it ought not to be a 'pork barrel' or piece-meal one."

"I am in favor of cutting down our immense army and navy appropriations and take this and appropriate it to the building of our rivers and harbors. To me much more insuring would be that slight of busy coats bearing their load of commerce upon our rivers and lakes than maneuvering armies or parading men of war. We ought to take care to see that the wharves and landing places for steamers along our rivers and lakes should be as free as the water which bears them on."

"The national river and harbor congress deserves much for the energy and ability with which it is agitating the improvement of our waterways. They are making the people alive to this great problem, and we Americans do things right when our attention is called to them and we undertake them."

River and Weather.

Gauge at 7 a. m. read 14.5 feet, indicating a fall of 1.3 feet since yesterday morning. Weather partly cloudy and business good.

Miscellaneous.

Loaded to her guards with wheat, the Ruben Dunbar passed here at 1 o'clock this morning for Nashville, Tenn., with her cargo. The wheat was loaded at Pace's Landing, Mo.

The J. B. Richardson, which arrived from Nashville today, leaves for a return trip there at 1 o'clock this afternoon. She brought in a good trip.

With no available space for freight remaining the Clyde departed for Waterloo, Ala., at 11:30 o'clock last night. She was delayed here receiving miscellaneous freight for Tennessee river points.

The City of Savannah arrived at 7 o'clock last night from St. Louis and left at 9 o'clock for Waterloo. She had an extra large cargo, including wheat.

The John S. Hopkins was the Evansville packet today.

Short of rosters and delayed by heavy business above here the John S. Lowry did not arrive from Evansville until 11:30 o'clock last night. She departed at 2:30 o'clock this morning for a return trip. All the packets are having more or less trouble with deckhands.

Pushing 20 empties the towboat John A. Wood passed at 5 o'clock

this morning for Louisville after delivering a tow of coal to New Orleans.

The Kentucky is due from Riverton, Ala., tonight and makes a return trip Saturday evening.

The towboat Mary Anderson brought a tow of ties out of the Tennessee river yesterday evening.

A private excursion will be taken out tonight by the ferryboat G. W. Robertson.

The Dick Fowler is busy handling wheat below here. She returned from Calro at midnight and departed on time this morning.

The Pittsburgh Sun says: Captain Walter L. Carroll, of the steamer Sprague, had an operation performed last Wednesday on his foot. It is reported that he is getting along nicely and will be out again at the end of the month.

The Paducah Gazette-Times says: Following a visit of Capt. John L. Vance, president, on consultation with the local members of the Ohio Valley Improvement association this week, it has been practically decided to accept the invitation of President Robert Reynolds, of the Ohio Valley Exposition society, to hold the annual convention of the Waterways association, originally set for Pittsburgh, in October, in Cincinnati next September. The change of meeting place for the convention will not interfere with any arrangements made by the local committee, as no definite plans for the convention had been adopted.

THIRSTY AUTO

PREVENTS ATTENDANCE AT THE GOOD ROADS MEETING.

County Judge, Magistrate and Road Supervisor Are Marooned in County.

Instead of delivering addresses advocating good roads as outlined at the rally at Rosington, County Judge Alben W. Barkley, Magistrate C. S. Walston and John H. Thompson, county road supervisor, spent two hours last night standing guard over an automobile that refused to

run because of a shortage of gasoline.

The county officers were billed to take a prominent part in the good roads rally last night at Rosington. Arrangements were made to make the trip in an automobile, and shortly after 7 o'clock they left Paducah. After traveling just beyond Maxon Mills, about one-half of the distance, the machine gave one dying gasp and stopped still in the middle of the road. The chauffeur examined the machinery, and every match was struck looking for the defect. Finally the gasoline tank was inspected, and it was found dry.

It was 8:15 o'clock then and time that the rally should begin, and the officers began delivering some speeches that were red hot. There was nothing to do but wait while the chauffeur trudged to Grahamville and lugged back some of the precious oil. It required just two hours to perform that mission. Shortly after 10 o'clock the party returned to Paducah.

Patrolman W. S. Beavers, of the Third street beat, has returned from Princeton, where he spent his vacation. Mrs. Beavers will not return until next week.

ANOTHER FIGHT TAKES PLACE ON KENTUCKY AVENUE.

Old Heret Secus Not to Have Been Cleared of Its Undesirable Citizens.

Knives that seem to be the favorite weapon for the "paatime" in the last few weeks, were used at random last night when Gertrude Gaines and Shelton Hayes, both colored, found that the cord that held their affections had parted. The duel took place at 911 Kentucky avenue, which was the scene of a free-fight fight and shooting a few nights ago. Hayes slashed Gertrude's left arm until she had to be carried to Riverside hospital to save her from bleeding to death. The main arteries were severed and she was too weak to appear for trial in police court this morning.

Hale, who made his escape when

Patrolmen Terrell and Ogilvie were sent to the house on a hurry call, was captured a few hours later by Patrolmen Ogilvie, Dunaway and Garrett near Ninth and Washington streets. An examination of his wounds showed a bad stab on the left side. He was entered for repairs. Both are charged with malicious cutting with intent to kill.

Hundreds of Happy Paducah Women Use The Hot Point Electric Iron ARE YOU ONE OF THEM?

If you are not let us send you one on a 30 days free trial. We have been carrying on a very successful flat iron campaign and are placing many irons every day. In fact, we have just put in a large stock of them to take care of the increasing demand.

If your house is wired for electricity you can use an electric flat iron. If your house is not wired, it could probably be wired at a very small cost, and you could avail yourself of the many other advantages besides the electric iron.

Do you realize what an electric iron means to you? No coal, ashes, hot fire or uncomfortable kitchen. Just attach the plug to a lighting socket, anywhere in the house or on the porch. When you are ready to iron, turn the switch and the iron is at the right temperature almost instantly. When you get through turn off the current.

We want you convinced as to the value of an electric iron. Take one home and try it and if it does not come up to your every expectation, you may send it back and it will cost you absolutely nothing.

The cost of a Hot Point Iron is but \$4.00
